

Indo-U.S. Virtual Networks for COVID-19: Update

The Indo-U.S. Science and Technology Forum (IUSSTF) received an overwhelming response to the ***Indo-U.S. Virtual Networks for COVID-19*** Call for Proposals.

Given the large number of applications and the available budget, IUSSTF will only be able to fund a small number of meritorious projects. Experts from both India and the United States have reviewed all the proposals and prepared a shortlist. Teams on the shortlist have been notified via email. Teams that have not received a formal communication from IUSSTF have not qualified for the shortlist.

While your project may not have been selected in this call, please feel free to apply for future IUSSTF grants.
