

## United States - India Science and Technology Endowment Fund

### **COVID-19 Ignition Grants: Update**

The **U.S.-India Science and Technology Endowment Fund (USISTEF)** received an overwhelming response to the *COVID-19 Ignition Grants Call for Proposals*. Given the large number of applications and the available budget, USISTEF will only be able to fund a small number of meritorious projects.

A panel of Experts from both India and the United States have reviewed all the proposals and shortlisted a number of applications. Teams on the shortlist have been notified via email.

Teams that have not received a formal communication from IUSSTF have not qualified for the shortlist.

While your project may not have been selected in this call, please feel free to apply for future USISTEF grants.
